

ESSAY WRITING

Topic – save India save environment

Became hard. Therefore, it is
urgent need to save our
environment.

Reduce, Reuse & Recycle. Follow
these 'R's to Conserve our Natural
Resources and Landfill Spaces.
Cut down what you throw
away & use natural Resources
wisely in order to avoid
waste. If we are able to
save our Environment we
can save our country from
factors like Global warming,
Pollution, U.V. Rays, etc

In India, by implementing these simple projects we can save our Environment. Simple projects like Use, Reusable Bags or Cloth Bags (Jute, cotton etc...), Avoid using plastic (such as Bottles, covers, containers etc.....), Use News papers that can be planted, Flushable wet wipes, Wooden things (Furniture, Doors, windows etc....) and Reuse tins, Cans etc.....

"Greatest threat to our planet is the Belief that some one else will save it" - Robert Swan

Some ways in which our Country (India's) Environment is Damaged are:

- 
- i) Deforestation (Cutting trees or forest).
 - ii) Pollution (Released By cars, Buses etc.)
 - iii) over use of fuels such as oil, Petrol etc...
 - iv) wastage of water (Running taps)
 - v) Occupation of place by cutting trees.
 - vi) No Greenary is found in cities.
 - v) over use of fertilisers, weedicides etc...
 - vi) No quality food is produced by farmers
 - vii) More costs on small plots plots of land.

Please Save Environment - Save life;

Save Earth; Save planet; Save country.

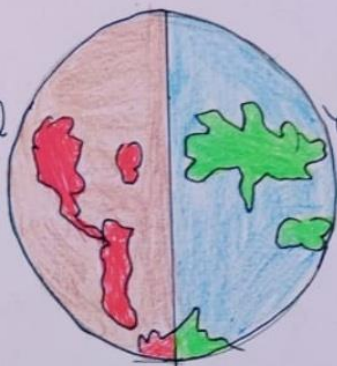

Some leaders have started programmes like "Haritha Haram", Forest & climate change is implementing National River Conservation Programme, sub-schemes of Conservation of Natural Resources & Eco-Systems, National Afforestation Programme & Green India Mission, National Coastal Management Programme, National Mission on Himalayan Studies, Swachh Bharat Mission, new mass movement, Namami Gange Programme, Green Skill Development programme, Toilets before temples & CAMPA. To save our Environment. Our Country is also helping us to keep our environment clean & tidy. But, we are not following the

Rules to Save our Environment.
If we follow Rules & Regulations we
can save our environment. Some of
the Rules are :-

- i) Don't spit or urinate outside (walls).
- ii) Keep your surroundings clean
- iii) Divide your waste into wet waste
and dry waste (Plastic Bottles, covers)
- iv) Also Don't throw waste in water
bodies like Rivers, Lakes, ponds etc....

"Thank you"

Polluted
Environment.

Clean
Environment
